

CORAL-CR

Advanced Hand-Held 3-5 μm lightweight Thermal Imaging Camera with Continuous Optical Zoom and Target Acquisition Capabilities

Main Advantages and Features:

- Continuous IR optical and digital zoom
- Long-range performance
- Advanced high resolution detector
- Integral eyesafe LRF
- Integral day CCD cameras
- Integral digital magnetic compass
- Integral GPS
- Real time target acquisition and target coordinates calculation
- Target image and data storage memory
- Advanced high resolution color OLED display
- Adjustable binocular viewer
- Low acoustic noise

Applications:

- Infantry, scouts and special units
- Security and perimeter defense
- Target acquisition systems for infantry commanders
- Night sight and target acquisition for Future Soldiers

Options:

Add-on Accessories:

- Add-on x2 telescope
- Clip-on laser pointer
